## **DETAILED ACTION**

### ***Acknowledgement of Receipt***

Applicant's response filed on 04/09/2009 to the Office Action mailed on 10/09/2008 is acknowledged.

### ***Status of the Claims***

Claims 1-19, 21, 25, 36, and 37 are cancelled. Therefore, claims 20, 22-24, 26-35, and 38-44 are currently pending examination for patentability.

Rejections and/or objections not reiterated from the previous Office Action are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set of rejections and/or objections presently being applied to the instant application.

Upon further search and examination new prior art was found which reads on the instant claims.

### ***New Grounds of Rejection***

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20, 22-24, 26-35, and 38-44 are rejected under 35 U.S.C. 102(b) as being anticipated by Illum et al. (International Application Published Under the PCT WO 89/03207, Published 04/20/1989).

Illum et al. teach a drug delivery composition comprising a plurality of microspheres and active drug associated with each microsphere, the drug being for systemic delivery. (See page 22, claim 1). The microspheres being starch of an average diameter of between 10 and 100 microns. (See page 22, claim 4). In preferred embodiment the drug composition is an insulin in a starch microsphere powder prepared by freeze-drying. (See page 16, Lines 11-20). The composition can be applied via the nasal route with a nasal insufflator device or pressurized aerosol canister. (See page 10, Lines 1-13). For the foregoing reasons the instant claims are anticipated by the prior art.

### ***Conclusion***
